

Adeshina Mubarak Opeyemi

Full-Stack Developer & Web3 Engineer

Lagos, Nigeria | +234 905 611 6119 | adeshinamubarak6@gmail.com | github.com/mubking | linkedin.com/in/mubking

PROFESSIONAL SUMMARY

Full-Stack Developer and Web3 Engineer with 4+ years of experience building production-grade web applications and open-source blockchain tooling. Proficient in React, Next.js, TypeScript, Node.js, and MongoDB on the web side, and Stellar/Soroban smart contract development and TypeScript SDK contribution in the Web3 space. Focused on clean architecture, real-world impact, and shipping products that work in production.

CORE SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, React Native

Backend: Node.js, Express.js, REST APIs, MongoDB, Authentication (JWT/OAuth)

Web3 / Blockchain: Stellar SDK, Soroban, Rust (smart contracts), Freightier Wallet

Tooling: Git, GitHub, Vercel, Postman, Agile / Scrum

WORK EXPERIENCE

Full-Stack Developer — Toshconsultinc Technologies (2022 – Present)

- Built and maintained full-stack web applications using Next.js, TypeScript, Node.js, and MongoDB, serving active clients across retail and service sectors
- Integrated Paystack payment gateway into a live e-commerce platform handling real transactions for Temitope Supermarket
- Improved page load performance by optimizing component rendering and API call patterns, reducing client-reported load issues
- Led code reviews, enforced consistent coding standards, and mentored junior developers on the team
- Collaborated with designers and backend engineers in Agile sprints, consistently delivering features on schedule

Frontend Developer Intern — MsMes Entrepreneur Nigeria (2023)

- Developed and tested frontend features alongside senior developers using React and Tailwind CSS
- Designed wireframes and prototypes that reduced back-and-forth with the design team during implementation
- Ensured cross-browser and mobile compatibility across all delivered features

PROJECTS

Temitope Supermarket | Next.js, Node.js, MongoDB, Paystack, Tailwind CSS

- Production e-commerce platform with secure authentication, Paystack payment integration, inventory management, and order tracking for a live Nigerian retail business

Live: temitope-supermarket.com

TradeFlow Web | Next.js, TypeScript, Stellar SDK, Freightier, Tailwind CSS

- Fractionalized real-world asset purchasing platform on Stellar testnet — built FractionalPurchaseModal with live balance fetching via Freightier wallet and BigNumber.js yield calculations
- Implemented toast notification system for Freightier wallet errors and edge cases, improving user feedback during on-chain transactions

protox-sdk | TypeScript, Stellar, Soroban, Node.js

- Open-source TypeScript SDK for interacting with Stellar/Soroban smart contracts — contributed contract versioning support and improved Freightier wallet error handling
- Resolved CI failures involving deprecated Soroban event APIs and Express routing issues in the TradeFlow-Core Rust contracts repository

FixNaija | Next.js, MongoDB, Node.js, Tailwind CSS

- Service marketplace connecting Nigerian consumers with verified local providers — built profile picture upload system, review submission flow, and live dashboard data wiring
- Resolved MongoDB Atlas DNS resolution issues by migrating from SRV to direct connection strings, eliminating production connectivity failures

Mo Photo Studio | *Next.js, TypeScript, EmailJS, Tailwind CSS*

- Professional photography studio website with portfolio showcase, booking system, and client gallery management

Live: mo-photo.vercel.app

EDUCATION

Higher National Diploma (HND), Business Administration — [Kwara State Polytechnic, Ilorin](#) (2025)

CERTIFICATIONS

- Frontend Development Certificate — May 2023
